

IN-VIVO RESEARCH FACILITY

ANIMAL HOUSE IS REGISTERED WITH CCSEA, Govt. of India

(Reg. No: 2368/GO/Re/S/2025/CCSEA)

The animal house of the Department of Zoology, Nagaland University, Lumami, was inaugurated on the **30th of September, 2024**, by the Honourable Vice Chancellor, **Prof. Jagadish Kumar Patnaik**. The facility, established as an in-vivo experimental unit, marks an important step towards enhancing research and academic activities within the department by providing a controlled environment for experimental and biological studies. At present, the animal house maintains only laboratory mice (*Mus musculus*), which serve as valuable model organisms for various scientific investigations. This in-vivo facility is expected to support future research initiatives in the field of zoology and related disciplines, ensuring ethical standards and proper care in animal experimentation.
